FOOD CONFORMITY DECLARATION

The paper composition analysis carried out according D.M. 21/03/'73 declaration and the following amendments (i.e. CE N°1 935/2004 of 27/10/2004), pointed the following paper items as suitable to be in contact with food, without migration testing (previous group V°):

- KK Avana
- KS Avana
- KU Avana
- KL Giallino

According to the testing on the paper items above mentioned, we declare hereunder:

- ❖ The *migration of lead* meets the D.M. 18/06/1979 values (3 microg/dm²)
- ❖ The *solidity of optical whitening devices* meets D.M. 30/05/2001, comma 2, therefore the samples do not present migrations onto optical whitening devices
- ❖ *PCB* meet the D.M 30/05/2001 values (2mg/kg)

The testing on the above paper items is carried out every 2 years, in order to confirm the positive values achieved since many years.
